Pharma24h™

The made in Italy technology that makes your business grow!

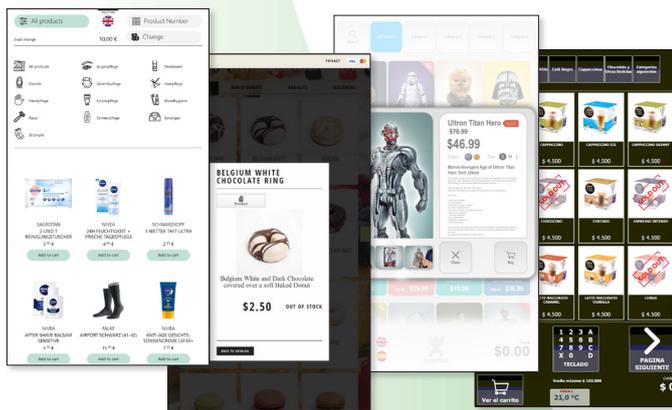

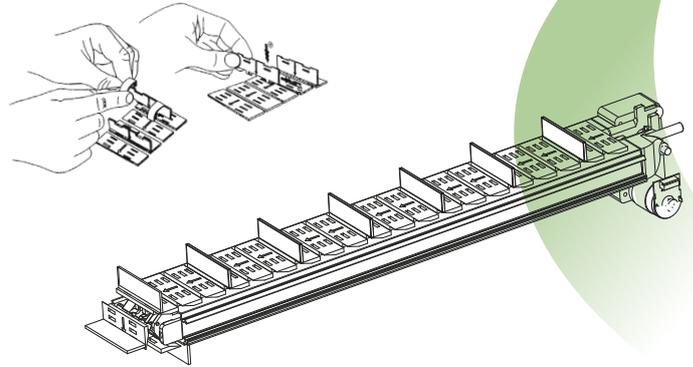

Automated kiosks with patented dispensing system without spirals: your pharmacy 24 hours a day, 365 days a year

Pharma24h™

Patented dispensing system with separators without spirals

Our **100% Made in Italy technology** allows you to easily and quickly organize the interior space of each machine, adapting it to **any type of product**, even the most fragile and delicate.

You can organize the space as you prefer **in complete autonomy, without any tools or technical assistance!**

Custom-made software

Kiosks software is entirely developed by our internal engineering team: **the graphic interface is completely customizable**, a lot of new functionalities can be also added on request, and every machine can be connected with your **management software**.

Our team of engineers is constantly working to develop and integrate the software with new applications.

Real time data service

Magex provides a cloud service for the real time management of the vending machines to all its customers, accessible from any device connected to the Internet. **Every sales data, the stock status**, banknotes or coins inserted or yields, the scheduled reboots and any planned change in the operation can be viewed in real time on this website.

PHARMA 24H™

Automated kiosks for pharmacies

Easy9
Easy14

Products dispensing at 90 cm height

The EASY line has a modern and attractive design that is unique of its kind; the product is gently transferred to the lift, thanks to the **Magex patented dispensing system**, without capsizing or ruining it. The withdrawal area is positioned **90 cm from the ground**, in the center of the display case. Additional modules with 9 or 14 lines can be added.

This line consists of two models:

Easy9 - 9 lines per floor, W. 142 cm - H. 199 cm - D. 88 cm

Easy14 - 14 lines per floor, W. 180 cm - H. 199 cm - D. 88 cm

Arena
Bigstore
Colosseo

Shuttle controlled by a robotic system

Product is delivered in the console area by a **shuttle controlled by a robotic system** that does not manipulate or capsize the items, thus allowing the sale of **even very delicate products** such as technological objects, food, etc.

This line is developed on three models with different sizes:

Arena - 9 lines per floor, W. 137 cm - H. 211 cm - D. 94 cm

Bigstore - 14 lines per floor, W. 188 cm - H. 198 cm - D. 98 cm

Colosseo - 18 lines per floor, W. 225 cm - H. 198 cm - D. 98 cm

Automated kiosks for pharmacies

Idea6
Idea9L

The new solutions for your business

The new generation vending machines that shape your business idea, combining **Magex patented technology** with a simple system and **compact shapes**.

The product is carried with an **elevator** in the withdrawal door under the display case.

The line consists of three models:

Idea6 - 6 lines per floor, W. 90 cm - H. 192 cm - D. 92 cm
Idea9L - 9 lines per floor, W. 130 cm - H. 191 cm - D. 92 cm

SmartVision
EvoVision
ProVision

Products dispensing from the bottom

Armored kiosks with double opening and independent locks; the withdrawal door is located in the lower area of the window, where the products are dispensed by **lift** and released directly into the drawer. **Slave modules** with 9 or 14 lines can be added for expansion.

The line is developed on three different sizes:

SmartVision - 6 lines per floor, W. 90 cm - H. 200 cm - D. 88 cm
EvoVision - 9 lines per floor, W. 112 cm - H. 200 cm - D. 88 cm
ProVision - 14 lines per floor, W. 152 cm - H. 200 cm - D. 88 cm

PHARMA 24H™

Console

CP1
CP2

Automatic consoles to sell pharmacy and para-pharmacy products, they are **perfect also for the night duty**: thanks to the internal conveyor belt linked to the withdrawal door, the pharmacy's staff can deliver the medicine **without having any contact with the customer outside**, once the prescription has been scanned by the barcode reader on the front.

The console can also be linked to the pharmacy's warehouse to for the automatic management of the medicines.

CP1 - W. 56 cm - H. 198 cm - D. 84 cm
CP2 - W. 56 cm - H. 198 cm - D. 51 cm

Let's build the pharmacy of the future with the Magex Pharma24h console!

CP3

Magex patented dispensing system with 6 lines per floor and a lift which carries the product to the collection compartment in the console.
To connect with CP1 or CP2.
W. 61 cm - H. 198 cm - D. 78 cm

PHARMA 24H™

Lockers

Box Max

Box Max is the brand new intelligent locker system to connect to any vending machine or console in the Magex range.

The large capacity, the **fully automatic management of the doors** and the extreme safety are the features that make Box Max ideal for the storage of even delicate objects.
Composed of as many as 16 compartments each, the Box Max machines can be **combined together to increase the quantity of stored items**.
Through the console, the user can communicate with the machine and obtain the automatic opening of his compartment.

Box Max - W. 88 cm - H. 199 cm - D. 88 cm
**Sportelli** - W. 34 cm - H. 20 cm - D. 60 / 85 cm

CP4

A system with 4 collection compartments with independent door.
Each one can contain a box with the size of 36 x 48 x 34 cm.
To connect with CP1 or CP2 console.
W. 65 cm - H. 198 cm - D. 88 cm
